EDUCATION

Indian Institute of Information Technology and Management, Gwalior

Nov 2022 – May 2030

Integrated B.Tech + M.Tech in Information Technology (Dual Degree) CGPA: 8.61/10

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), TypeScript, Python

Frameworks: React, Next.js, Node.js, Express, Angular

Databases: MongoDB, MySQL, PostgreSQL, PrismaORM, Firebase

Linux & Cybersecurity: Bash scripting, Linux CLI, Network fundamentals, Nmap, Wireshark, basic penetration testing concepts

Concepts: Operating Systems, OOPs, DBMS, Computer Networks, Distributed Systems

PROJECTS

Ghost Gate | *Node.js, React, Linux, Network Utilities* | *Major Project*

[GitHub](#)

- Developed a full-stack cybersecurity and network monitoring dashboard providing real-time visibility into connected devices, open ports, and potential vulnerabilities on a local network.
- Integrated packet analysis and alerting mechanisms to detect anomalous traffic patterns, leveraging Linux networking tools and custom shell scripting for automated data collection.
- Built a React-based frontend with live-updating charts and logs, making network health and threat indicators accessible to non-technical users at a glance.

Personal Portfolio Website | *React, JavaScript, CSS, Netlify*

[GitHub](#) | [Live Site](#)

- Designed and deployed a responsive personal portfolio showcasing projects, skills, and achievements, optimised for performance and cross-device compatibility.
- Implemented smooth animations, dynamic routing, and a polished UI/UX to deliver an engaging browsing experience across all screen sizes.
- Deployed on Netlify with CI/CD pipeline integration, ensuring seamless updates and 99.9% uptime.

ACHIEVEMENTS & LEADERSHIP

- Earned 18+ Google Cloud Skill Badges** on Google Cloud Skills Boost (Oct 2025), spanning Machine Learning & AI, Data Management, Infrastructure Modernization, Application Modernization, Smart Analytics, and Productivity & Collaboration domains.
- Badges include: *Level 3: Generative AI (Arcade), Develop GenAI Apps with Gemini and Streamlit, Prompt Design in Vertex AI, Analyze Speech and Language with Google APIs, Create and Manage Cloud Spanner Instances, Deploy and Manage Applications on Google App Engine, Build Serverless Applications with Cloud Run Functions, The Basics of Google Cloud Compute, Monitoring in Google Cloud, Set Up a Google Cloud Network, Build a Website on Google Cloud, Implement Cloud Storage and Data Protection Solutions, Implement Event-Driven Messaging and Automation Workflows, Organize and Govern Data with Knowledge Catalog, Deploy and Secure Serverless APIs with API Gateway, App Building with AppSheet, Develop with Apps Script and AppSheet*, and more.
- Selected in GSSoC 2026** (GirlScript Summer of Code) – contributing to open-source projects as part of the nationwide programme.
